Food Establishment Plan Review Procedure

This plan review document has been developed to assist regulatory and industry personnel in achieving greater uniformity in the plan review process. Plan review of food service establishments, retail food stores, and all other food operations, is maintained as a high priority by the state Department of Health, whether for new or existing buildings.

This document has been developed to serve as a guide in facilitating greater uniformity and ease in conducting plan review – **whether your position is a regulator or industry person wishing to build or expand.** You need not be an expert to effectively complete this process.

The intent of this document is to save time, money, prevent frustration by the users and most important, reduce the number of food borne illnesses because of poor facility design.

Please review this document carefully. If you have any questions or need assistance, please contact the Upper Missouri District Health Unit at (701) 774-6400
